

The New School Parents' Association (NSPA)

<http://newschoolpa.org/>

The New School Parent Association (NSPA) is a non-profit organization composed of all New School parents. The NSPA seeks to foster community among parents, students, and faculty by holding social events throughout the year. We facilitate communication via class representatives and online forums. We also finance student scholarships and funds events that support students and teachers.

If you would like to receive communications directly from the NSPA about upcoming events or volunteer opportunities, please fill out and return this form to the Main Office. Thank you!
